We welcome applications in all areas of mathematics.

A minisymposium (MS) is generally a session of 4 or more coordinated presentations on a single topic of substantial current interest and importance in mathematics and its applications. The MS organizer is the chair of the minisymposium and may also be one of the speakers within the minisymposium. You can indicate one talk as a 50 minute keynote talk, all remaining talks will be 25 minute talks. Minisymposia may be held in English or German.

The scientific committee will decide on the minisymposia.
